Contents of Volume 39

Nos. 1,2

A.W. Gummer, J.W.T. Smolders and R. Klinke (Australia, F.R.G.)
Mechanics of a single-ossicle ear: I. The extra-stapedius of the pigeon 1

A.W. Gummer, J.W.T. Smolders and R. Klinke (Australia, F.R.G.)
Mechanics of a single-ossicle ear: II. The columella footplate of the pigeon 15

V.M. Richards, Z.A. Onsan and D.M. Green (U.S.A.)
Auditory profile analysis: Potential pitch cues 27

K.G. Hill, J. Mo and G. Stange (Australia)
Excitation and suppression of primary auditory fibres in the pigeon 37

K.G. Hill, J. Mo and G. Stange (Australia)
Induced suppression in spike responses to tone-on-noise stimuli in the auditory nerve of the pigeon 49

K.G. Hill, G. Stange and J. Mo (Australia)
Temporal synchronization in the primary auditory response in the pigeon 63

K.G. Hill, G. Stange, A.W. Gummer and J. Mo (Australia)
A model proposing synaptic and extra-synaptic influences on the responses of cochlear nerve fibres 75

P.A. Santi, J.T. Larson, L.T. Furcht and T.S. Economou (U.S.A.)
Immunohistochemical localization of fibronectin in the chinchilla cochlea 91

C. Rodrigues-Dagaeff, G. Simm, Y. De Ribaupierre, A. Villa, F. De Ribaupierre and E.M. Rouiller (Switzerland)
Functional organization of the ventral division of the medial geniculate body of the cat: Evidence for a rostro-caudal gradient of response properties and cortical projections 103

E.M. Rouiller, C. Rodrigues-Dagaeff, G. Simm, Y. De Ribaupierre, A. Villa and F. De Ribaupierre (Switzerland)
Functional organization of the medial division of the medial geniculate body of the cat: Tonotopic organization, spatial distribution of response properties and cortical connections 127

S.M. Khanna and M.C. Teich (U.S.A.)
Spectral characteristics of the responses of primary auditory-nerve fibers to amplitude-modulated signals 143

S.M. Khanna and M.C. Teich (U.S.A.)
Spectral characteristics of the responses of primary auditory-nerve fibers to frequency-modulated signals 159

R.B. Patuzzi, G.K. Yates and B.M. Johnstone (Australia)
The origin of the low-frequency microphonic in the first cochlear turn of guinea-pig 177

R.B. Patuzzi, G.K. Yates and B.M. Johnstone (Australia)
Changes in cochlear microphonic and neural sensitivity produced by acoustic trauma 189

R. Velluti, M. Pedemonte and E. García-Austt (Uruguay and Spain)
Correlative changes of auditory nerve and microphonic potentials throughout sleep 203

E.R. Lewis and K.R. Henry (U.S.A.)
Cochlear nerve responses to waveform singularities and envelope corners 209

No. 3

H. Burda, V. Bruns and E. Nevo (F.R.G., Israel)
Middle ear and cochlear receptors in the subterranean mole-rat, *Spalax ehrenbergi* 225

J.B. Kelly, G.L. Kavanagh and T.W. Picton (Canada)
Brainstem auditory evoked response in the ferret (*Mustela putorius*) 231

Y. Muratsuka, H. Ueda and T. Konishi (U.S.A.)
Effects of sodium bromate on ionic concentrations and osmolalities of the cochlear fluids in guinea pigs 241

J.A. Wiler, B.M. Clopton and M.A. Mikhail (U.S.A.)
Effect of electrical pulse shape on AVCN unit responses to cochlear stimulation 251

R. Rajan and B.M. Johnstone (Australia)
Contralateral cochlear destruction mediates protection from monaural loud sound exposures through the crossed olivocochlear bundle 263

K. Ikeda and T. Morizono (U.S.A.)
Electrochemical profiles for monovalent ions in the stria vascularis: Cellular model of ion transport mechanisms 279

R. Dunia and P.M. Narins (U.S.A.)
Temporal integration in an anuran auditory nerve 287

R. Rajan (Australia)
Tonic activity of the crossed olivocochlear bundle in guinea pigs with idiopathic losses in auditory sensitivity 299
